

# Offering a Flexible Array of Solutions

## *Liberty Northwest Loss Prevention Consulting Center*

Build a better loss prevention strategy with Liberty Northwest. Our Loss Prevention Consulting Center can answer your questions, provide advanced technical guidance, and help you prevent and control losses with a flexible array of solutions.

We'll assess your unique risk situation until we get to the core of a safety-related problem, exploring the frequency, likelihood, and potential severity of risk. We can also provide practical tools and recommendations that you can implement quickly. Our team gains insight over the phone, or by viewing photos or videos of specific problem areas. We can then conduct research, assist with training solutions, or help establish a formal safety program. We can also work with you to identify methods to monitor these solutions and validate their effectiveness.

*"I've always found your company's consulting center very helpful now and in the past."*

~Liberty Northwest policyholder

### **Experienced**

Work with a team of qualified professionals. Our loss prevention consultants are trained in risk management strategies for commercial insurance lines including workers' compensation, fleet, property, and general liability. Work with us either over the phone or by email to identify risks in your operation and put innovative—yet practical—safety solutions in place.

### **Knowledgeable**

Our consultants have access to Liberty Northwest's extensive safety research and resources, and can answer just about any question that comes up. If needed, we can also quickly contact a technical professional who has more in-depth knowledge about your industry and its specific safety challenges.

*"Your consultant followed up on everything they said they would and then did more than I asked! I was very impressed with the thoroughness. Your consultant answered all questions I had and helped us to get our safety program up to current OSHA standards. I was very impressed with the can-do attitude and willingness to make sure that all our concerns were satisfied. It was a pleasure to speak with them!"*

## *Liberty Northwest Loss Prevention Consulting Center*

### **Responsive & Accessible**

However you choose to contact us—by phone or email—you'll appreciate the availability and responsiveness of our loss control support team. Our consultants are ready to answer your questions, provide safety resources, and partner with you to improve your loss control efforts. We can also help identify loss trends and offer solutions that improve your bottom line. Get help implementing safety solutions that can make your workplace safer and more efficient, and control your total cost of risk.

*"It was great to know that I have a person to consult with, and your consultant went beyond to give me assistance and information to help me. I will be happy to consult with them again."*

~Liberty Northwest policyholder
